

Pokoloruj pola z wynikami równymi 24.

A multiplication maze puzzle where the goal is to find a path from the snowman at the bottom left to the snowman at the top right. The path is formed by cells containing multiplication problems that result in the number 24. The maze is composed of various rectangular paths. The multiplication problems are:  $5 \cdot 8$ ,  $1 \cdot 22$ ,  $4 \cdot 6$ ,  $9 \cdot 6$ ,  $2 \cdot 2$ ,  $9 \cdot 4$ ,  $2 \cdot 10$ ,  $10 \cdot 6$ ,  $12 \cdot 2$ ,  $6 \cdot 5$ ,  $10 \cdot 1$ ,  $3 \cdot 9$ ,  $2 \cdot 13$ ,  $7 \cdot 7$ ,  $3 \cdot 7$ ,  $5 \cdot 3$ ,  $3 \cdot 3$ ,  $4 \cdot 8$ ,  $5 \cdot 4$ ,  $8 \cdot 2$ ,  $3 \cdot 8$ ,  $1 \cdot 24$ ,  $7 \cdot 6$ ,  $9 \cdot 3$ ,  $1 \cdot 9$ ,  $3 \cdot 5$ ,  $24 \cdot 1$ ,  $6 \cdot 4$ ,  $9 \cdot 9$ ,  $1 \cdot 9$ ,  $2 \cdot 6$ ,  $8 \cdot 3$ ,  $2 \cdot 12$ , and  $8 \cdot 3$ .

Pokoloruj pola z wynikami równymi 24.

A duplicate of the multiplication maze puzzle described above. The goal is to find a path from the snowman at the bottom left to the snowman at the top right. The path is formed by cells containing multiplication problems that result in the number 24. The multiplication problems are:  $5 \cdot 8$ ,  $1 \cdot 22$ ,  $4 \cdot 6$ ,  $9 \cdot 6$ ,  $2 \cdot 2$ ,  $9 \cdot 4$ ,  $2 \cdot 10$ ,  $10 \cdot 6$ ,  $12 \cdot 2$ ,  $6 \cdot 5$ ,  $10 \cdot 1$ ,  $3 \cdot 9$ ,  $2 \cdot 13$ ,  $7 \cdot 7$ ,  $3 \cdot 7$ ,  $5 \cdot 3$ ,  $3 \cdot 3$ ,  $4 \cdot 8$ ,  $5 \cdot 4$ ,  $8 \cdot 2$ ,  $3 \cdot 8$ ,  $1 \cdot 24$ ,  $7 \cdot 6$ ,  $9 \cdot 3$ ,  $1 \cdot 9$ ,  $3 \cdot 5$ ,  $24 \cdot 1$ ,  $6 \cdot 4$ ,  $9 \cdot 9$ ,  $1 \cdot 9$ ,  $2 \cdot 6$ ,  $8 \cdot 3$ ,  $2 \cdot 12$ , and  $8 \cdot 3$ .
